

2016 PQRS Group Practice and ACO Web Interface Reporting Mechanism

Web Interface Q&A Session Support Call

Program Year 2016

February 16, 2017

Disclaimer

This presentation was current at the time it was published or uploaded onto the web. Medicare policy changes frequently so links to the source documents have been provided within the document for your reference.

This presentation was prepared as a service to the public and is not intended to grant rights or impose obligations. This presentation may contain references or links to statutes, regulations, or other policy materials. The information provided is only intended to be a general summary. It is not intended to take the place of either the written law or regulations. We encourage readers to review the specific statutes, regulations, and other interpretive materials for a full and accurate statement of their contents.

Announcements

1. During this support call, Pioneer Model Accountable Care Organizations (ACOs), Next Generation ACOs, Shared Savings Program ACOs, and PQRS group practices will be collectively referred to as organizations.
2. Review the Web Interface measure specifications and supporting documents on the [GPRO Web Interface](#) page of the CMS website.

Reminders

1. Important Dates for 2016 Web Interface Data Submission

Date	Topic
1/16/2017 through 3/17/2017	Web Interface submission period
3/20/2017 through 4/21/2017	Access submission reports

Note: The Web Interface will close at **8:00PM ET on 3/17/2017**. CMS encourages organizations to submit data well *before* 8:00PM ET to ensure it is fully submitted before the Web Interface closes.

Reminders (cont.)

2. Upcoming 2016 Web Interface Data Submission Support Calls

Date	Time (ET)	Topic
2/23/2017	1:00-2:00 PM	Web Interface Q&A Session
3/2/2017	1:00-2:00 PM	Web Interface Q&A Session
3/9/2017	1:00-2:00 PM	Web Interface Q&A Session
3/14/2017	12:00-1:00 PM	Web Interface Q&A Session
4/6/2017	1:00-2:00 PM	Web Interface Lessons Learned

Note: Support calls will offer a question and answer session if the title indicates “Q&A Session”

Reminders (cont.)

- 3. 2017 Upcoming Outages/Maintenance Weekend Schedule:** The [Physician and Other Health Care Professionals Quality Reporting Portal](#) (Portal) will be unavailable for scheduled maintenance; therefore, the Web Interface will not be accessible during the following periods:
- Every Tuesday starting at 8:00PM ET–Wednesday at 6:00AM ET
 - Every Thursday starting at 8:00PM ET–Friday at 6:00AM ET
 - Third weekend of each month starting Friday at 8:00PM ET–Monday at 6:00AM ET
 - February (2/24/2017 – 2/27/2017)*

*The third weekend of February (2/17-2/20) is skipped due to a federal holiday

Reminders (cont.)

- 4. Reporting Requirements:** Organizations must completely report the required number of beneficiaries in order to satisfactorily report:
- Minimum of 248 consecutively confirmed and completed beneficiaries in each module; OR
 - 100 percent of beneficiaries if they have fewer than 248 beneficiaries available in the sample

Reminders (cont.)

5. **Avoiding future payment adjustments:** Satisfactorily reporting all 18 Web Interface quality measures will allow PQRS group practices and EPs participating in an ACO to avoid the 2018 PQRS payment adjustment
6. **Alignment with the Medicare EHR Incentive Program:** EPs participating in an ACO or PQRS group practice who meet 2016 Web Interface submission requirements will satisfy their CQM reporting for the Medicare EHR Incentive Program
 - PQRS group practices are required to use EHR technology certified to the 2014 Edition to populate the Web Interface
 - EPs participating in an ACO must use certified EHR technology to abstract data to report to the ACO, in the form and manner specified by the ACO. ACOs must then satisfactorily report the Web Interface measures.
 - All EPs must individually attest separately to the EHR Incentive Program for other program requirements
7. **Shared Savings Program:** ACOs who fail to satisfactorily report Web Interface measures will not meet the quality performance standard and will be ineligible to share in savings, if earned

Presenter: Sue Hanlon, CMS Contractor

FREQUENT WEB INTERFACE QUESTIONS

Web Interface Questions

Number	Question	Answer
1	Can the submission of a new XML file overwrite existing data values in the Web Interface?	<p>It depends:</p> <ul style="list-style-type: none">• Yes, because an XML element which contains a value (anything other than NULL) will replace the value for that same element.• Yes, because an XML element which contains a value (anything other than NULL) will replace the NULL value for that same element.• No, because an XML element which contains a NULL value will NOT replace the value for that same element.
2	What is the difference between uploading an XML file or manual data entry vs. submitting my data to CMS?	<ul style="list-style-type: none">• Uploading data via XML saves your data in the Web Interface• Manual data entry (and Save Patient) saves your data in the Web Interface• Data Submission makes your data available to CMS for 'official' scoring and reporting

Presenter: Deb Kaldenberg, CMS Contractor

FREQUENT MEASURES QUESTIONS

Web Interface Measure Questions

Number	Question	Answer
1	<p>IVD-2: If a patient is prescribed an anticoagulant medication (i.e., Apixaban, Argatroban, Bivalirudin, Dabigatran, Dalteparin, Desirudin, Edoxaban, Enoxaparin, Fondaparinux, Heparin, Lepirudin, Rivaroxaban, Tinzaparin, Warfarin) instead of one of the antithrombotic therapy medications identified as numerator compliant in the measure, how do I report?</p>	<p>There are no allowable exclusions or exceptions for this measure. You may however request a CMS Approved Reason to skip this patient. The ACO/group may submit their scenario as a request for an Other CMS Approved Reason to skip. An Other CMS Approved Reason request is reserved for cases that are unique, unusual, and not covered by measure skip reasons. Though this option is available as a drop down, it may not be used without prior approval from CMS. To gain CMS approval, a QualityNet Help Desk ticket should be submitted to qnetsupport@hcqis.org with:</p> <ul style="list-style-type: none"> • the disease module or patient care measure, • beneficiary rank number (never any protected health information, “PHI”), and • an explanation of why you think it is appropriate to skip the beneficiary. <p>CMS will either approve or deny the request and will identify appropriate next steps (if any) that need to be taken. This information will be provided in the resolution of the QualityNet Help Desk ticket. You should retain this documentation and enter the QualityNet Help Desk resolution number in the GPRO Web Interface.</p>
2	<p>MH-1: If a patient has a dx of major depression during the index period, but then later during the index period it is annotated in the medical record that the diagnosis of major depression is resolved, should the patient be considered eligible based on diagnosis or not?</p>	<p>This patient <u>would</u> be eligible for the denominator, assuming there is also a PHQ-9 greater than 9 result during the index period.</p>

Presenter: Michael Kerachsky, CMS Contractor

RESOURCES & WHERE TO GO FOR HELP

Educational Resources

- **Web Interface Webpage of the CMS PQRS Website:** http://www.cms.gov/Medicare/Quality-Initiatives-Patient-Assessment-Instruments/PQRS/GPRO_Web_Interface.html
